## **TX3X CHESTERFIELD ISLAND DXPEDITION NEWS**

(Press Release 6 - dated August 23rd) [edited] -- TX3X - Chesterfield Islands 2015 DX-pedition (OC-176) -- The equipment, ~2,400 pounds (1,090kg) on 4 pallets is on the way to New Zealand, scheduled delivery August 26th, and the Advance Team will soon begin their journey to Auckland. They'll meet the boat at Bayswater Marina and transfer equipment from storage to the boat. On September 16th the boat sails for Noumea, New Caledonia, to collect the team and will sail for Chesterfield Island on September 28th. We expect to land on Oct. 1st and begin setting up the operating camps. On August 5th the skipper reviewed and approved our dates and landing plan.

**NBR. 660**

**New Corporate Sponsor:** We thank Bob Hardie W5UQ of Expert Linears America, LLC (<http://expertlinears.com/>) for his support of TX3X. Bob is providing the new, lightweight, SPE EXPERT 1K-FA solid state amplifier. Meeting Bob and his wife Elva at Friedrichshafen, Germany, they immediately offered their support to TX3X.

**The Boat:** Evohe recently underwent inspection and overhaul. A new generator was installed as well as other systems updated. She's back in the water with her Class B transponder transmitting position reports, currently in Dunedin, New Zealand. You can follow our journey at TX3X.com.

**Operating Principles:** As previously announced, we'll be operating 10-160, SSB, CW and RTTY. We'll have 6 meter capability, conditions permitting we will try to allocate time to that band. Martti Laine/OH2BH and Wayne Mills/N7NG are providing advice on operating plans and recommending techniques for pile-up management.

**North Cook and Tuvalu DX-peditions:** E51MQT & E51MKW - North Cooks DX-pedition and the T2GC - Tuvalu DX-pedition will be operating during TX3X. Please see our operating frequencies listed at TX3X.com to minimize confusion, make sure you know which team you are calling. Listen to the operator's instructions.

**Getting in the log:** Follow the DX Code of Conduct and the operating guidelines posted at TX3X.com and getting in the log should be relatively easy.

**Global Pilot Team:** After we sail for the island we'll have limited access to the Internet. Please direct your questions, concerns or comments to the pilot for your geography listed on TX3X.com. Chief Pilot, Ralph, W4HK, will consolidate, summarize and forward your comments to the team. Look to the DX bulletins for regular updates from the island.

And finally, so many people have helped us throughout the project that it's impossible to thank everyone here. However, we owe a special THANKS to our financial supporters the: clubs, foundations and individuals. Thanks for your continued support of our projects; we'll see you in the pile-ups.

And for those that would like to support us your contribution to PayPal: [donate@tx3x.com](mailto:donate@tx3x.com) is appreciated.

73, TX3X Team Chesterfield and the Perseverance DX Group

## **E6GG Niue - September 2015 by G3BJ, Don Beattie**

All logistics arrangements are now complete for the E6GG operation on Niue from 16th to 29th September. The first team members leave for the South Pacific in late August, and the whole team meets in Auckland two days before the departure for Niue.

All antennas are complete and tested, as are all the stations and computing equipment. The team expects some limited operation from 15th September, with all stations operational on the 16th.

The website is at [www.e6gg.com](http://www.e6gg.com) and includes a propagation analysis.

The team will be listening exclusively for Europe during the relatively short European openings on LF, and hopes to work as many European stations as possible on all bands, where Niue is at #61 on the most wanted list. Whilst we are listening for Europe, we ask the rest of the world to stand by, to give Europeans a chance on this very marginal LF path.

The team is taking some 400 kg of equipment by air, including four complete high power stations, and will be using antennas at the water's edge and cliff-top optimised for low angle high gain. They will also use a beverage directed to Europe for LF receiving.

E6GG will always use split frequency operation and will announce listening frequencies regularly. For RTTY they will deploy multi-channel receive, so your best chance of an early RTTY QSO is to choose a calling frequency and stay on that frequency until the team finds you. RTTY is likely to be only on a maximum of two bands.

**OK1WDC from E51**

## **FR/J, JUAN DE NOVA (Update).**

The following press release was sent out on August 14th [edited]:

The team is mobilized and carries out many things to prepare under the best conditions for our operation from the island Juan de Nova. Until our departure, we will keep you regularly informed through our official press releases and via our website.

For this new adventure, it was possible to enlarge the team involved into the Tromelin 2014 operation.

We are happy to welcome Jacques/F6BEE, Yann/F1NGP, Patrick/F2DX and Pascal/F5PTM. They rejoin Vincent/F4BKV, Flo/F5CWU, Guillaume/F4FET, Michel/FM5CD and Seb/F5UFX.

We'll use the same equipment as the one used in Tromelin, supplemented by various equipment placed at the disposal by sponsors. We are happy to have at our sides this year Elecraft (transceivers), Spiderbeam (fiber masts), Messi & Paoloni (coaxial cables), Expert - SPE (amplifiers), DX Engineering (80m phasing & accessories), MicroHam (interfaces), DX Avenue (6m DX Beam antenna). These companies allow us to implement all the desired equipment. We are very grateful for their support.

We do not forget foundations, clubs, associations and individual donators. Some already accepted our requests and gave us their confidence. However, we are still far away from the set objective. Within 1 month, the first payment to settle the boat will have to be carried out. We'd like to make another call toward the amateur radio community to ask for their assistance and support. Like we have done with our previous operation, we are engaged in a meticulous control of the costs by studying each expenditure and by dismissing all things non essential to a DX Expedition.

The boat that we will use sails in the Indian Ocean throughout the year, and the crew knows Juan de Nova well and regularly transports scientists over there. Based on the experiment of our captain, we have determined dates by taking into consideration the end of the cyclonic season as well as the best low tide conditions to unload our equipment at our arrival in the lagoon. We will be on the island from March 31<sup>st</sup> to April 14th, 2016. The callsign used during this expedition will be FT4JA. We recently received the confirmation from the administration.

By then, many points must be solved in order to propose a formidable experience on the two sides of the pile-up. More than ever we count on your support.

Join our page Facebook, Twitter (juandenovadx) and visit regularly our Web site <<http://www.juandenovadx.com>>.

FT4TJA - Juan de Nova 2016 team.

**PRESS RELEASE #1 by Antonio González EA5RM [edited] From DX World**

**During June 2013, Manuel, EA7AJR and I had our first meeting with a D.P.R.K. Government official. After our meeting we gave him a Ham Radio project for D.P.R.K.**

**One year later, April 2014, we had our second meeting and we provided him with a new project.**

**On April 2015, we had our third meeting and another new project was sent to Pyongyang. Just a few days later after our latest project was received at the Ministry, the D.P.R.K. Government sent us an official invitation to visit the country looking to discuss our project details in person.**

**On August 17th, 2015 we had a meeting with high level officials from the Telecom Ministry. They were very kind, receptive and cooperative. They knew everything about Ham Radio so it was really easy to talk with them about our operation project.**

**If everything goes as well as it is up to today, I can say that we are very close to getting permission to realise the first legal Ham Radio operation from D.P.R.K.**

**So let´s keep our fingers crossed because we are also in front of a real and historical possibility to an opening for future Ham Radio operations from this nice country.**

**Antonio González EA5RM

## **PRESS RELEASE # 3**

Great news from the Mediterraneo International Dx ClubTeam.

During their already announced Da Nang city-Vietnam dxpediton with the call-sign: 3W3MD from October 31 to November 10 the international team leading by Antonio, IZ8CCW and Gabriele I2VGW will be able also to active for some days also

Cham island IOTA AS-162 (claimed only by 17% of IOTA chasers)

As a matter of fact some operators will leave the main land for 3-4 days and with two stations and a couple of antennas they will try to give the reference to many Iota chasers as possible.

Of course the rest of the team (19 skilled dx operators coming from 9 Countries) will be on air from the beach of Da Nang with five station 24 hours around the clock.

According to the evaluations that they have done, they are confident to give to a lot of dxers the possibility to work this Country in the Low bands, Warc and especially in the Digis modes.

Quite all equipments and antennas are ready for the new adventure of MDXC team. All the licenses are in hands of Ant and Gab and all has been already arranged (boat, generators, contacts etc) for the transfert on Cham Island AS-162. Save the dates and keep ears open, because the call sign for the Iota operations of the team will be 3W3MD/P

Any donation will be very very appreciated by the team

For any further news and updates please visit the official web site of this new great adventure
