VK0EK DXPEDITION NEWS

Earlier march 23 VK0EK DXpedition team leader KK6EK, Dr. Bob Schmieder, was interviewed by W5KUB, Tom. You can listen to the interview at https://www.youtube.com/watch?v=R3_UHvNg54g. The highlights were that Bob, along with the team and Braveheart crew were just about to go ashore to and begin setting up the camp, antennas, etc. needed to put VK0EK on the air. Bob said it would probably take 1-2 days before we can expect signals from VK0EK. KY6R, Rich, co-organizer, was also part of the interview and mentioned there has been some pirate activity. He mentions there are two ways that DXers will know when

the real VK0EK is QRV. He will post the beginning of their operation on the vk0ek.org website and you will be seeing actual QSOs going into the log on the team's DXA3.org website. Next Wednesday, March 30th, and the following Wednesday, April 6th, both Bob and Rich plan to be back on Amateur Radio Roundtable with W5KUB, Tom. It should be noted that sunrise on Heard Island is around 0109Z and sunset around 1312Z.

FT4JA JUAN DE NOVA DXPEDITION NEWS

March 23th press release

After more than a year of work, we are happy to finally get into the thick of it. The team will be complete in Mayotte on Thursday around noon! The schedule for the coming days is pretty full, with the last purchases and technical checks and the loading of the boat. We will sail away on Saturday. Our chief pilot will communicate updated information on the unloading and installation. At this time, we hope to be on the air on the evening of March 29 after a full day spent assembling.

A page displaying in real time the progress of the team has been set up: <http://www.juandenovadx.com/en/track-us-in-real-time/>

As a reminder, we will use the band plan shared with our friends at VK0EK. Some windows are very narrow and we will have to live together in all understanding, without departing from the intended plan, at the risk of generating confusion and disruption between the two activities. The band plan is available on both websites. Our different pilots are available to transit informations to the team (JJ3PRT, ON9CFG, N5FG).

The 10 operators will not have access to their personal emails and because of a lack of internet connection we will not be watching the DX-Cluster. No need to transit messages for us through that medium.

<http://www.juandenovadx.com/en/pilots/>

Every day, we will transmit via satellite our logs to our chief pilot F5UKW who will upload them to ClubLog. However, the "leaderboard" feature will not be activated.

No modification or search of the log will be made by our pilots. If in doubt, work us again.

<http://www.juandenovadx.com/en/online-log/>

The QSL manager is Flo, F5CWU. He will process OQRS and the direct QSL requests as well as the cards received via the bureau. The ClubLog OQRS will be active by the end of the operation. We strongly recommend its use. Later, the logs will be loaded on LoTW and eQSL.

<http://www.juandenovadx.com/en/qsl-infos/>

As part of our expedition on Juan de Nova island, we are pleased to announce that a stamp set will be issued by T.A.A.F. QSL cards sent direct will automatically have the envelope/stamp. We will unveil this commemorative object later.

Everyone connected to the FT4JA project would like to thank all of you who have already contributed in one way or another to the project. It would not be at this stage without the tremendous mobilization of clubs, foundations and individual donors.

The early donation program will be closed on Friday 25 at 1200Z. The "donors" page of our website will not be updated further after that specific time. <http://www.juandenovadx.com/en/how-to-help-us/>

73 and we'll see you on the air in a few days
